MASSACHUSETTS WILDLIFE

Vol. LIII

No. 3

FEATURES

BIRD NESTS

2

— Fran Silverstein

One of the great mysteries of the natural world is how birds can build their specific, often complicated nesting structures without instruction or experience ...

RED OAK LICHENS

8

— Roger Monthey, Constance Stubbs and Stephen Sharnoff

Improve your woodlore knowledge by learning to identify a few of the many lichen species that live on the bark of one of our most common forest trees ...

KAYAK

16

— Gail Hansche

The "Eskimo boat" may be the ideal personal fishing platform, but it also offers a host of advantages for wildlife watchers and photographers ...

ON CALL FOR THE WILD

20

— by Jessica Briggs

Follow the adventures of a recent college graduate who spent a year with AmeriCorps doing conservation work to the betterment of Cape Cod ...

THE MASTER SERPENT

35

— Ann Bailey Dunn

Common, adaptable and more harmless than a mouse, the garter snake is our most familiar reptile, but some people can't even get its name right ...

8

Director's Editorial, 36

Indestructible Water Bears, 15

A Snake in the House, 35

16

On the Cover: A Greater Yellowlegs is among the many wetland wildlife species that can be photographed to advantage from a kayak. Photographer and author Gail Hansche set up on shore to catch this one in Wellfleet, MA, using a Nikon F100, Nikkor 500f4 lens, Nikon SB26 flash (set at -1), Bogen tripod and Fuji Provia 100 film.
